The system at a glance

One system for every kind of business that sells.

6

ways to get paid

Cash, MoMo, pay link, Paystack, card, credit

4

ways to sell

By unit, kilo, metre or pack

0

network needed

Keep selling offline; syncs later

1

link for your online shop

Catalogue, WhatsApp orders, delivery

100%

profit visibility

Profit per product and income statement

3

stock alerts

Low stock, expiring soon, expired

3

staff roles

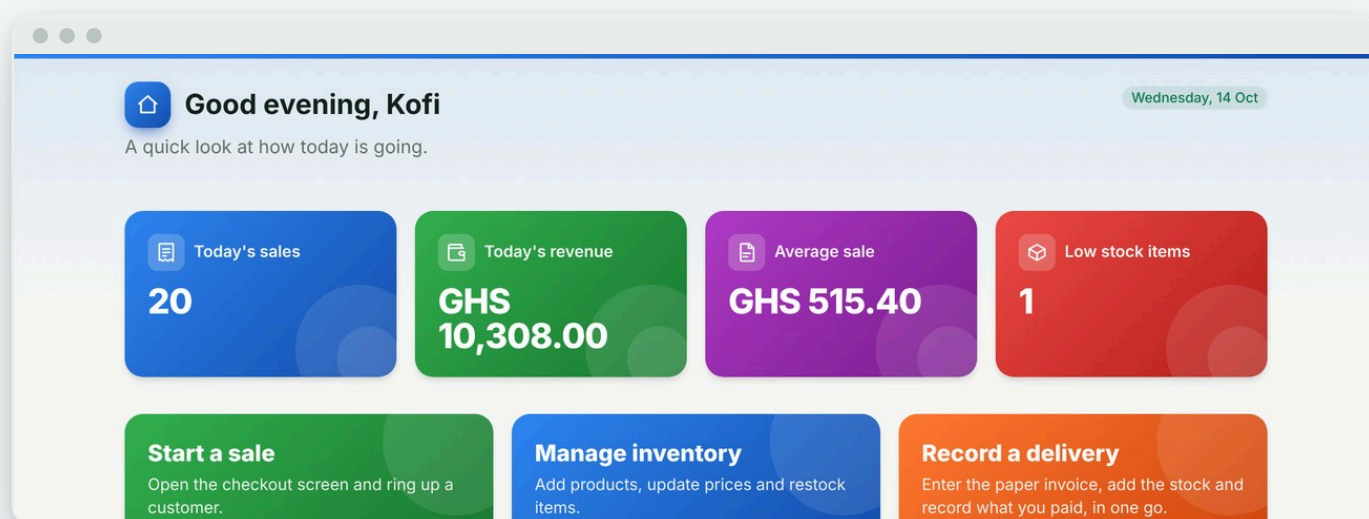

Owner, Manager and Employee

5

business types

Supermarket, wholesale, cold store, construction,

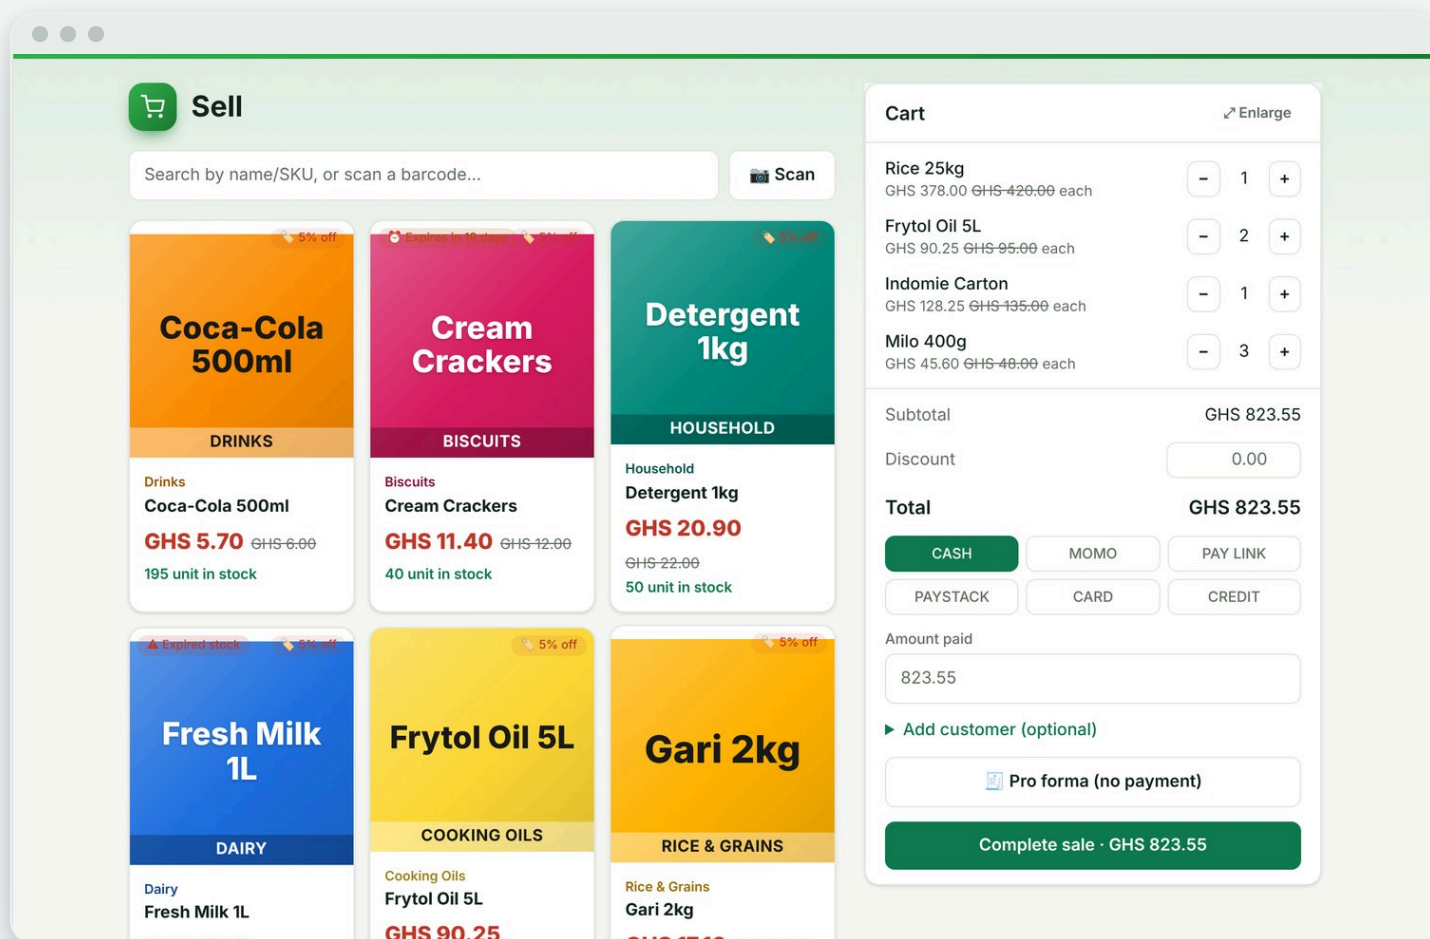

REAL SCREEN FROM THE SYSTEM: TODAY'S DASHBOARD

Selling at the till

Ring up a sale in seconds, any way your customer pays.

REAL SCREEN: THE TILL WITH A CART, DISCOUNTS AND PAYMENT BUTTONS

Tap or scan

Tap a product tile, search by name or scan a barcode.

Discounts apply by themselves

Promotions show as 5% off and are taken off at checkout.

Sell any way you measure

By unit, kilo, metre, carton or custom pack.

Six ways to pay

Cash, MoMo, pay link, Paystack, card or customer credit.

Pro forma quotes

Give a customer a priced quote without taking payment.

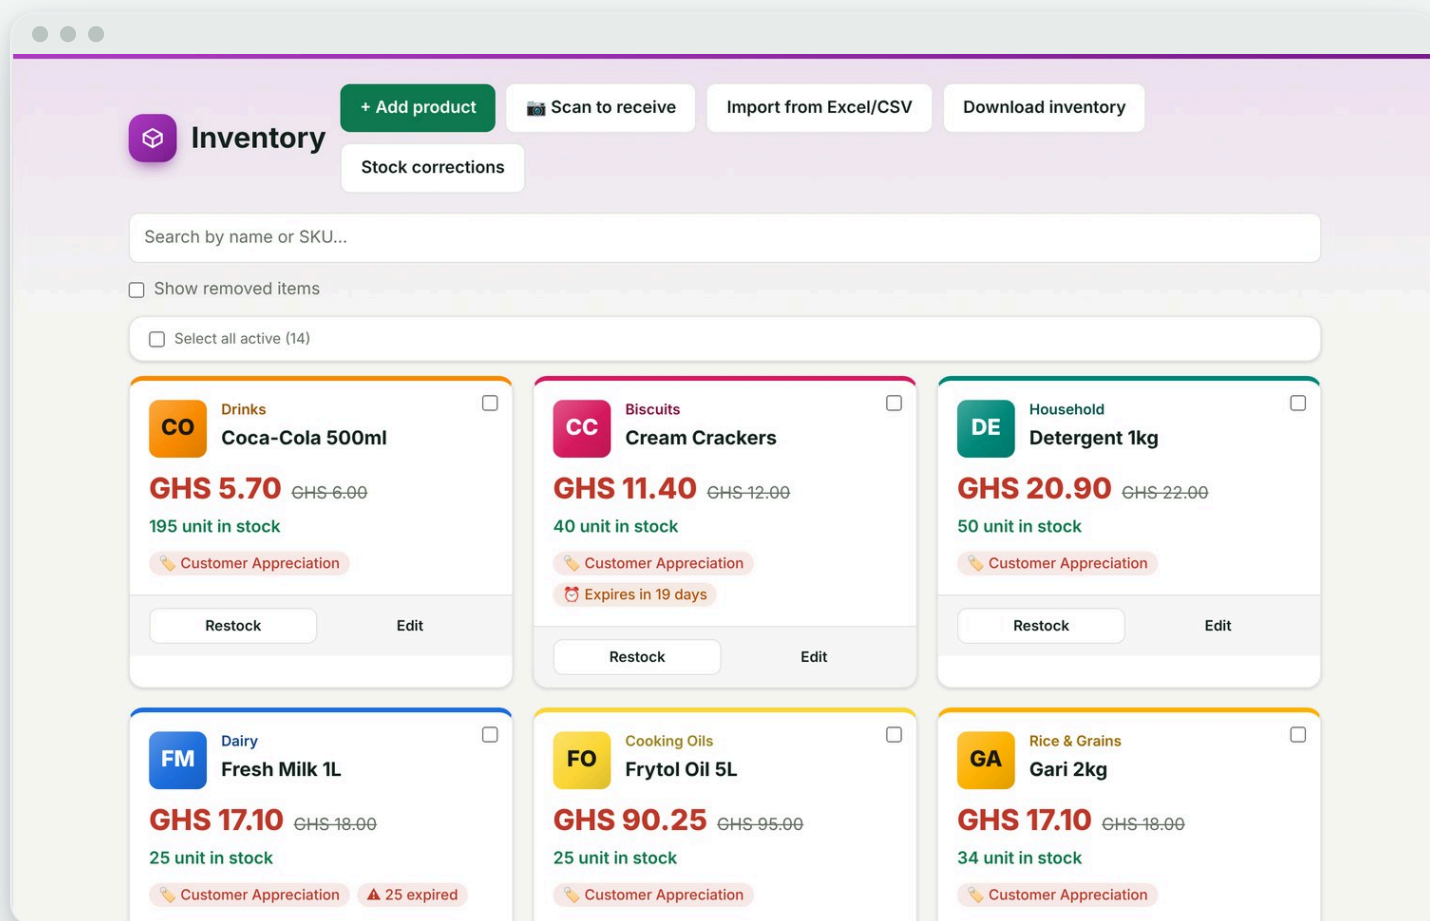

Receipts and voids

Print or show a receipt. Cancel a wrong sale and stock returns.

Products and stock

Every product, price and count in one place.

REAL SCREEN: INVENTORY WITH PHOTOS, DISCOUNTS AND EXPIRY TAGS

Add fast, import many

Quick add or import from Excel. Download everything with photos.

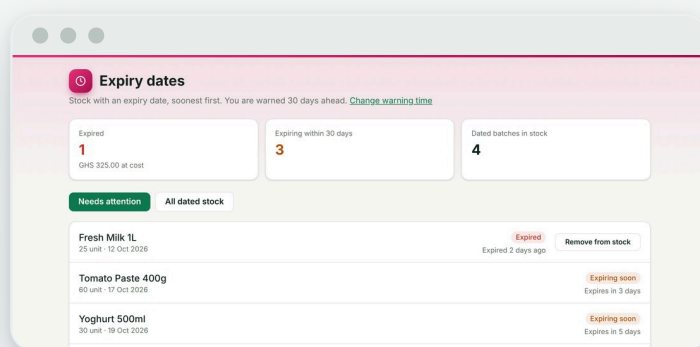

Audited stock corrections

Fix a count with a reason, so every change can be traced.

Low stock alerts

See what is running out before the shelf is empty.

REAL SCREEN: EXPIRY DATES

Receiving stock and suppliers

Scan a delivery in, record what you owe, never lose track.

Scan to receive

Scan a barcode, say how many arrived, save. New barcodes are looked up online and linked to your products by name.

0 of 14 products have a barcode
0%

What are you receiving?
Just add stock (no invoice)

Pick an invoice to count a supplier delivery against it. Stock then goes in once, from the invoice.

Delivery with a paper invoice? Enter it here

One screen: scan the items, add the stock and record what you paid.

Scan a barcode

☒ Open the camera again after each save

No camera? Type the barcode number
e.g. 5449000000996
Look up

Or find a product by name (no barcode needed)

Start typing a product name

REAL SCREEN: SCAN TO RECEIVE

Invoices

+ New invoice

Track bills from your suppliers and receive stock straight into Inventory when it arrives. Buying stock isn't an expense by itself — its cost reaches Reports automatically once it sells.

Owed to suppliers

All Unpaid / partial Awaiting receipt

Kumasi Wholesale Ltd · #KW-20418
9 Oct 2026 · Awaiting receipt

GHS 8,680.00
Unpaid

REAL SCREEN: SUPPLIER INVOICES WITH WHAT IS OWED

Scan to receive

Scan barcodes as stock arrives. Unknown barcodes are looked up online.

Delivery with a paper invoice

Enter the invoice, add the stock and record what you paid in one go.

Expiry dates on arrival

Capture expiry while receiving so alerts start straight away.

What you owe suppliers

See unpaid and part-paid invoices at a glance.

Payments and delivery

Get paid the Ghanaian way and deliver with your own riders.

Payments & delivery

Set up how customers pay you and how their orders reach them. Each part tells you if it will really work.

Ready to take online orders?

Online shop is switched on

At least one way to get paid

Yes

Delivery

On, 2 riders

Your password

To keep your money safe, type your password here before you change a Mobile Money number or a payment key below. Nothing else on this page needs it.

Your login password

Send Mobile Money to you

On

Easiest. Free. No account to open.

The customer sends the money to your own MoMo number and taps **I have sent the money**. They never type a transaction ID. You see the amount and their number on the order and match it with the SMS on your phone.

Your MoMo number

024 440 0400

Network

MTN

Name on the MoMo account

Kofi Mensah

What your customer sees

Send GHS 25.00 to 024 440 0400 (Kofi Mensah, MTN), then tap **I have sent the money**.

Tip: a personal number is fine to start. When you get many orders a day, ask your network about a MoMo merchant account, because ordinary wallets have daily limits.

Save MoMo number

Turn off

Pay prompt on the customer's phone (Paystack)

Not set up

The customer types only their MoMo PIN. Confirms by itself.

- 1 Open a free account at paystack.com. Paystack charges 1.95% on each payment and pays you the next working day.
- 2 In Paystack go to Settings, then API Keys & Webhooks and copy the Secret key. It starts with sk_test_ to practise or sk_live_ for real money.

REAL SCREEN: ONE SETUP PAGE FOR ALL PAYMENTS AND DELIVERY

Mobile Money to your number

Customers send MoMo straight to you and you confirm it.

Paystack and Hubtel

Card and mobile money pay prompts, set up per shop.

Your own riders

Add riders and assign each order to one.

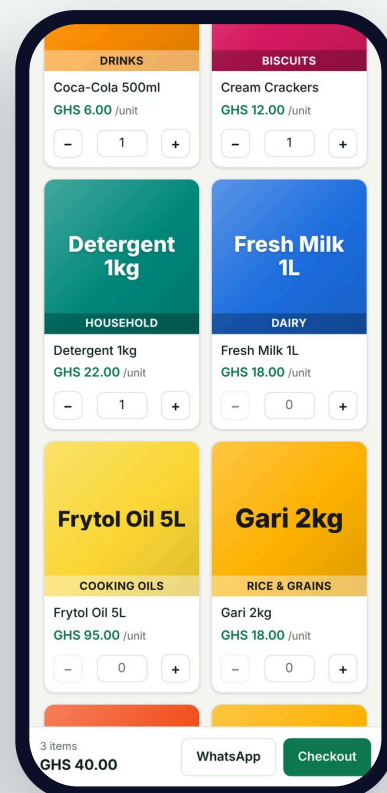

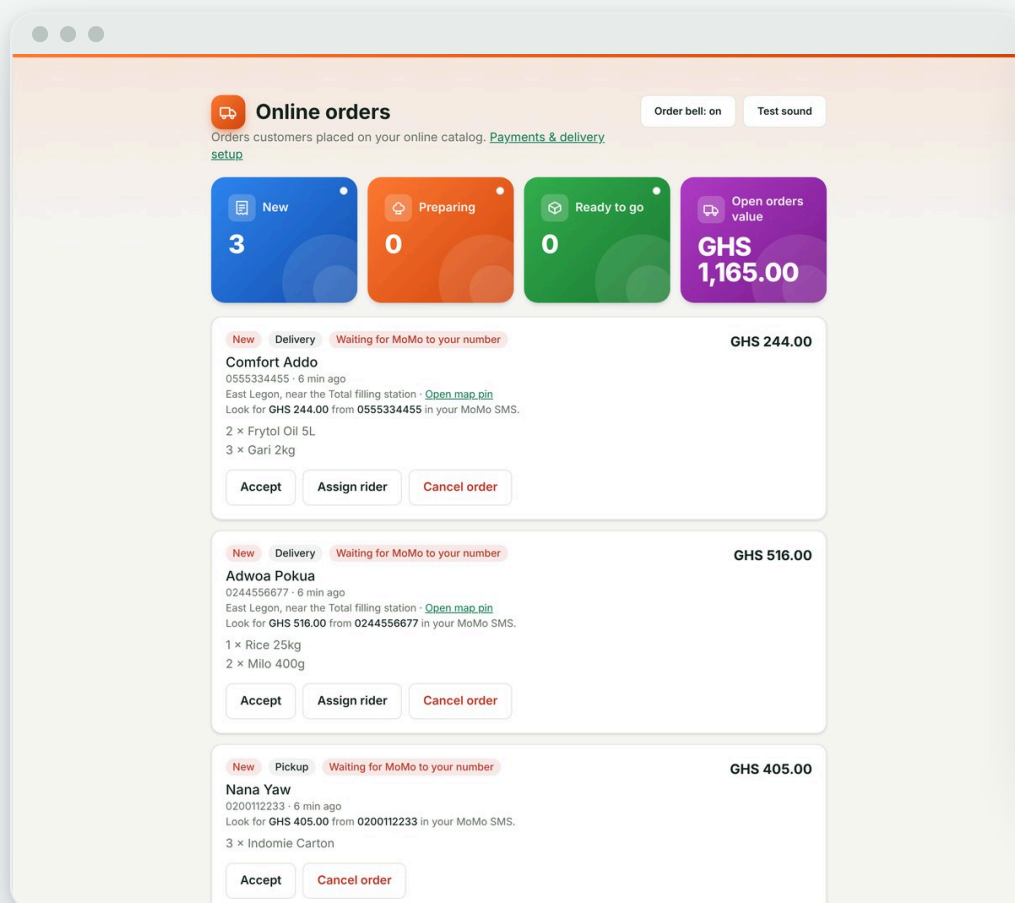

Delivery partner

Use the Dawurobo delivery service when you need it.

Your shop online

A catalogue link customers open on their phone. No app, no account.

WHAT YOUR CUSTOMER SEES

REAL SCREEN: ONLINE ORDERS WITH A BELL FOR EACH NEW ORDER

Share one link or QR

Post it on WhatsApp, Facebook or print it for the counter.

Tap a picture to enlarge

Customers see products clearly before they order.

Order bell and sound

A bell rings the moment a new order arrives.

Pickup or delivery

Customers choose, and pay by MoMo or online.

Customers, credit and sales history

Know who bought, who owes you and what sold today.

REAL SCREEN: SALES HISTORY WITH PAYMENT METHOD AND STAFF

Who owes you

Record a payment against a customer's balance.

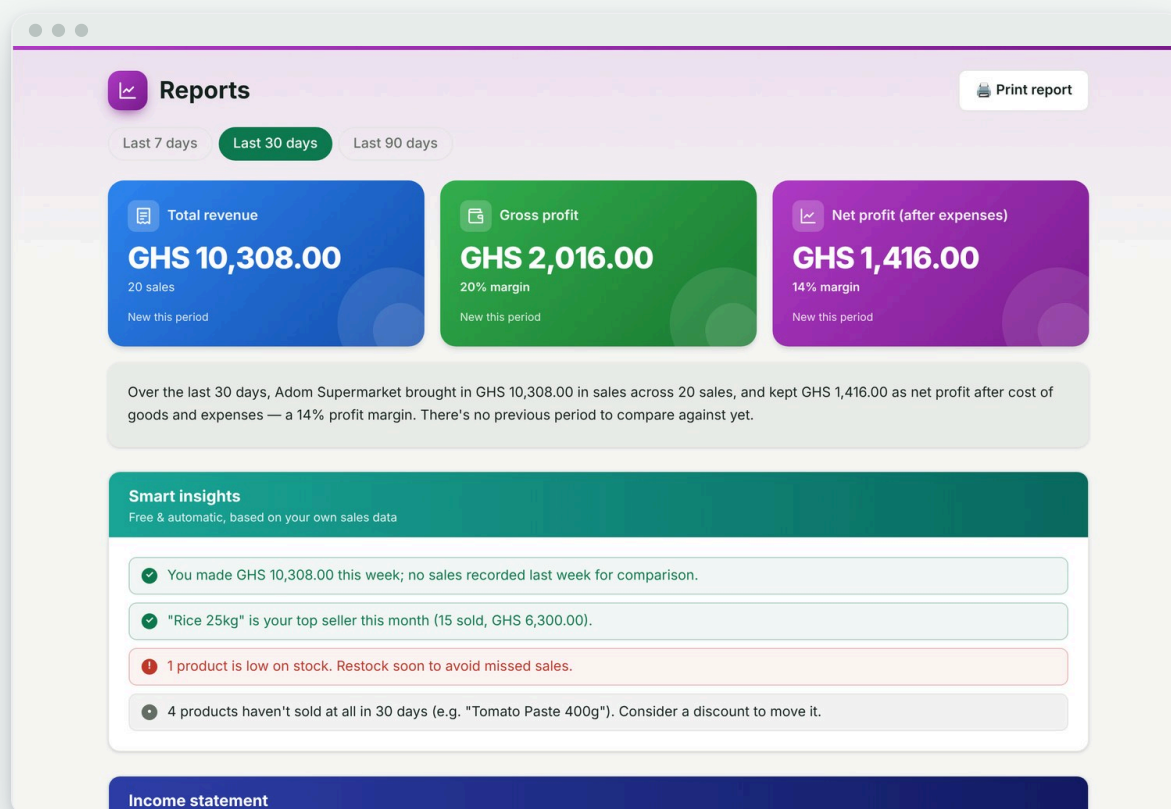

Every sale on record

Filter by today, 7 days, 30 days or all time.

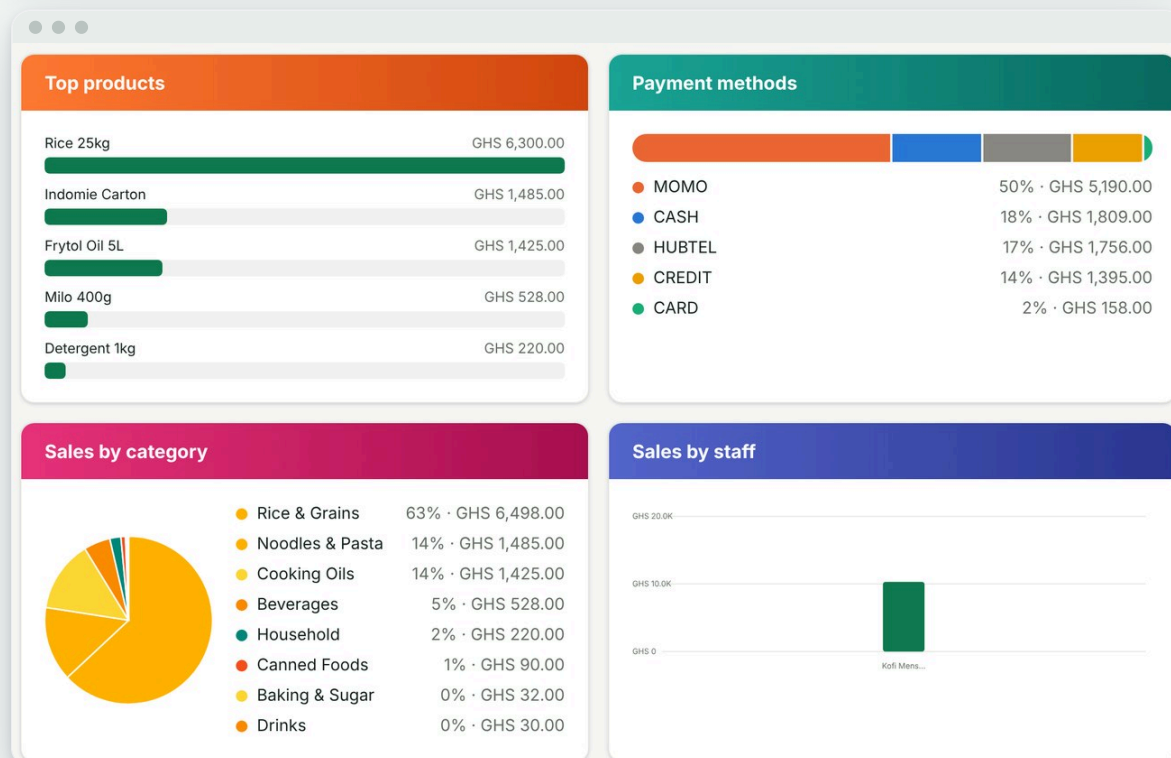

Reports and profit

Know exactly what you earn, per product and per month.

REAL SCREEN: SUMMARY, SMART INSIGHTS AND INCOME STATEMENT

REAL SCREEN: TOP PRODUCTS, PAYMENT METHODS AND SALES BY CATEGORY

Profit, not just sales

Gross and net profit, with margin per product.

Smart insights

Plain-language tips from your own numbers.

Accountant export

Income statement and a CSV your accountant can import.

Promotions, expenses and assets

Run the business side from the same screen.

Promotions

Set up a discount once, and it applies automatically at checkout for as long as it runs. Percentage deals work across every carton/half/quarter/kg/lb price a product has.

REAL SCREEN: ASSETS SUCH AS FREEZERS, VEHICLES AND GENERATORS

One system, every kind of business

Switch on the modes you need. Give each person the right access.

☐ Show a tax line on receipts

☐ Enable event & rental bookings
 Turns on the Bookings page and maintenance tracking for items you rent out (canopies, chairs, sound equipment, etc.). Only an owner can change this.

☐ Enable restaurant mode
 Adds a table/order number field to the till, and lets you set up add-ons (extra cheese, no onions, etc.) on individual menu items in Inventory. Renames Inventory to "Menu" and swaps stock counts for a simple Available toggle, since a prepared dish isn't something you can sensibly count "in stock." Only an owner can change this.

☐ Enable construction materials mode
 Renames Inventory to "Materials" throughout the app (cement, blocks, iron rods, timber, etc.). Only an owner can change this.

☐ Enable cold store mode
 Renames Inventory to "Cold Store" throughout the app. Only an owner can change this.

☐ Add a service charge to every sale

☒ Enable online catalog (WhatsApp/Facebook ordering)
 Turns on a public, no-login page listing your products with photos and prices, that you can share on WhatsApp status, Facebook, or a flyer. A customer taps what they want and it opens WhatsApp with their order pre-typed, sent straight to your shop's phone number above — no new account or app for them to install. Only an owner can change this.

Your catalog link
https://safe-era-pos.onrender.com/catalog/shop_35106942e06a4 Copy

Scan to open your catalog — print this on a table sign, at the counter, or on a flyer.

Add a second "message us on Facebook" button on your catalog page. Leave blank to only

REAL SCREEN: BUSINESS MODES IN SETTINGS

Construction materials

Sell by length and weight, with wording that fits.

Restaurant

Menu-style till and a kitchen ticket queue.

Assets

Track freezers, vehicles and generators.

Cold store

Freezer and chilled stock with expiry tracking.

Events and rentals

Bookings for items you rent out, with maintenance.

Many shops, one login

Switch between shops from one account.

Staff accounts + Add staff

Give each employee or manager their own login instead of sharing yours. A Manager can do everything except manage other staff or your subscription; an Employee can sell and view inventory but can't change prices or settings.
